CAPITAL CAMPAIGN

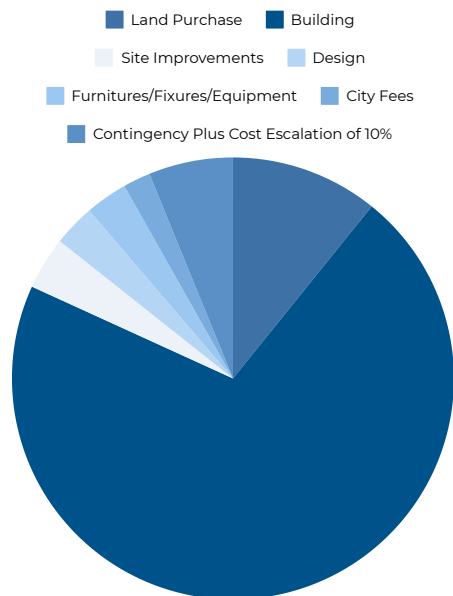

BUILDING INDEPENDENCE, TOGETHER

THE BUDGET

Building a brand-new residential facility is a costly, yet worthy endeavor. This new development will be designed and constructed to ADA code, ensuring that individuals feel safe, supported, and productive in their homes. The total cost to complete this project is estimated to be \$3,239,000.

We are working to raise \$150,000 to bring this transformative housing complex to life. With your support, we will have the capital to push the development of our new residential unit over the finish line.

BUDGET BREAKDOWN

THE COMPLEX

Ability Inclusion Services is constructing a new, ADA-compliant residential complex for adults with disabilities. This building is designed with safety and accessibility in mind; minimizing the risk of accidents or falls while helping residents manage daily tasks independently. Barrier-free living allows residents to focus on personal growth, hobbies, and social interactions rather than be limited by physical obstacles.

This project will engage participants in the local community, building connections between individuals in the area to encourage interaction and mutual understanding. Additionally, the complex will boost the local economy as residents participate in nearby businesses and services.

THE NEED

Many homes in Utah were built before 1990 and do not meet ADA accessibility standards, creating significant barriers for individuals with disabilities.

By donating to this campaign, you will help create a more inclusive community and ensure dignified, barrier-free living for individuals with disabilities. Your support will have a lasting impact, meeting a critical housing need and inspiring positive change across the region.

- **12 new units for accessible, inclusive living**
- **Providing 24/7 support and care**
- **100% reduction in mobility barriers and safety obstacles in daily routines**
- **Supporting 65+ years of community service**
